## Goal Set For Heart Fund Drive

The goal of the 1965 Heart Fund Drive has been set at more than \$2 million.

"The \$2,085,000 represents the highest goal ever set for Heart Association," said 1965 Heart Fund Chairman, John G. Edmondson. "Of course, the real goal of the Heart Fund and its 65,000 volunteers is the conquest of heart disorders."

"Most of us have been encouraged by the miracles of heart surgery and other numerous advances in diagnosis and treatment resulting from heart research—a substantial part supported through the Heart Fund," said Edmondson, who is vice president of Richardson Associates.

"NOW THESE dramatic advances must be offered for use by the medical professions. In turn, everyone of us can keep our own hearts healthy by learning and applying knowledge gained from heart research."

"To accomplish this vital educational program without taking funds away from the continuing demand for more research additional money is needed."

Last year's goal was \$1,742,000. The public recognized the heart problems within the county and topped this goal with contributions of more than \$1.8 million.

Those interested in becoming Heart volunteers and topping this 1965 Heart Fund goal are invited to contact their nearest branch Heart office.
